## **Notice Regarding Change in the Execution Date of Equity Acquisition (Subsidiary Acquisition) of Isometric Intermediate LLC**

Nissha Co., Ltd. (“the Company”) hereby announces that a change has been made to the execution date of the Equity Acquisition, in “Notice of Equity Acquisition (Subsidiary Acquisition) of Isometric Intermediate LLC (DBA Isometric Micro Molding), and all subsidiaries thereto, a U.S. based Micro Molding Company for Medical Devices” announced on December, 5, 2023, while the Company has been preparing for acquiring 75.53% of equity of Isometric Intermediate LLC and its related group companies, through the Company’s consolidated subsidiary Graphic Controls Acquisition Corp. and Nissha Medical Technologies (Wisconsin), LLC which are engaged in the Medical Technologies CDMO business.

### 1. Reason for the change

The Company expects a change in the execution date of the Equity Acquisition as stated in “2. Details for the change”, considering the time required for procedures with the U.S. authorities, while the Company has been preparing for the transfer of the equity after signing the Securities Purchase Agreement with Isometric Intermediate LLC. There is no change in the policies to execute the Equity Acquisition based on the Securities Purchase Agreement.

### 2. Details for the change

Execution date of the Equity Acquisition

(Before change) Late December 2023 (Schedule)

(After change) We will conduct the acquisition immediately after the acquired companies complete procedures with the U.S. authorities and announce it promptly after the execution date becomes clear.

### 3. Future outlook

The impact of the change in the execution date of the Equity Acquisition on our consolidated business results for the fiscal year ending December 31, 2023 is minor.

END
